Certificate of employment

Peter Bittner
born on 15.06.1975
from Austria

We hereby confirm that Peter Bittner, born on 15.06.1975, has been working in our company VSHN AG, Zurich from **01 April 2018 to 31 December 2020** as a System Engineer.

Peter Bittner has been entrusted with the following tasks in his capacity as "System Engineer":

- Engineering of Docker based containerization and deployment automation based on Atlassian Bitbucket Pipelines or GitLab CI onto OpenShift platform for several applications.
- Automation engineering for controlled custom updates of managed Varnish Enterprise configurations using Ansible and GitLab CI.
- Configuration management (Puppet engineering) for managed services.
- Hold workshops on Continuous Delivery, CI/CD, DevOps and automation, OpenShift & Kubernetes concepts and modern application developer best-practices.
- On-site consulting on customer request (solution architecture, pipelines, automation, cloud native best-practices).
- Technical presentations on several technical conferences and meetups
- WAF deployment automation engineering.
- Application development, public collaboration and active community management on GitHub and other social coding platforms for Open Source projects.
- Engineering of project generator setup to showcase VSHN best practices and allow customers self-service comfort for greenfield and migration projects.
- Cooperation in 24/7 on-call service.

The competent completion of these tasks required a good grasp of the subject and the ability to familiarise himself independently with the complex material of his work environment within a very short time. Peter Bittner fulfilled these requirements qualitatively and quantitatively to our full satisfaction.

We got to know Peter Bittner as a technically skilled and competent employee who was actively committed to the continuous improvement of agile processes and organisational topics in the team. His attitude towards his work and our company was very interested and loyal. Peter Bittner is a communicative person who consistently represents his values and questions contexts. Working with him was collegial and helpful, and his behaviour towards VSHNeers, customers and partners was always polite and friendly.

Due to our internal restructuring, we can no longer employ Peter Bittner with us, which is why the employment relationship has been terminated by us. We thank him for his good commitment to us and wish him all the best and continued success in his future career and life.

Zürich, 23.12.2020
